DAFTAR ISI ..................................................................................................................................... x
DAFTAR TABEL .............................................................................................................................. xiv
DAFTAR LAMPIRAN ..................................................................................................................... xv

BAB I PENDAHULUAN
A. Latar Belakang Masalah ........................................................................................................... 1
B. Identifikasi Masalah .................................................................................................................. 12
C. Pembatasan Masalah ............................................................................................................... 13
D. Perumusan Masalah ............................................................................................................... 13
E. Kegunaan Penelitian .............................................................................................................. 13
   1. Kegunaan Teoretis .............................................................................................................. 13
   2. Kegunaan Praktis ............................................................................................................... 14

BAB II KAJIAN TEORETIK
A. Deskripsi Konseptual ............................................................................................................ 15
   1. Hakikat Kepuasan Kerja ................................................................................................... 15
      a. Dimensi Kepuasan Kerja ............................................................................................ 17
      b. Aspek Kepuasan Kerja ............................................................................................... 19
      c. Faktor Penentu Kepuasan Kerja .............................................................................. 20
      d. Teori Tentang Kepuasan Kerja ............................................................................... 22
BAB III METODELOGI PENELITIAN

A. Tujuan Penelitian ........................................................................................................... 38

B. Tempat dan Waktu Penelitian ....................................................................................... 38

C. Metode Penelitian .......................................................................................................... 39

D. Populasi dan Sampel ....................................................................................................... 39

E. Operasionalisasi Variabel Penelitian ............................................................................ 40

1. Kepuasan Kerja ............................................................................................................... 40
   a. Definisi Konseptual .................................................................................................... 40
   b. Definisi Operasional .................................................................................................. 40
   c. Kisi-Kisi Instrumen Kepuasan Kerja ....................................................................... 41

2. Intensi Turnover .............................................................................................................. 41
   a. Definisi Konseptual .................................................................................................... 41
   b. Definisi Operasional .................................................................................................. 42
   c. Kisi-Kisi Instrumen Intensi Turnover ..................................................................... 42
   d. Skala Pengukuran ...................................................................................................... 42

F. Konstelasi Pengaruh Antar Variabel ........................................................................ 44

G. Teknik Analisis Data ..................................................................................................... 44

1. Uji Persyaratan Analisis ................................................................................................. 45
   a. Uji Validitas ............................................................................................................... 45
   b. Uji Reliabilitas .......................................................................................................... 46

2. Analisis Deskriptif ......................................................................................................... 48
3. Uji Linieritas (Uji F) ................................................. 48
4. Uji Koefisien Determinasi ........................................ 48
5. Uji Hipotesa .......................................................... 49
   a. Uji Simultan (F Hitung) ........................................ 49

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Gambaran Umum Daerah Penelitian ............................ 51
B. Gambaran Umum Responden ....................................... 51
   1. Usia Responden ...................................................... 51
   2. Jenis Kelamin ........................................................... 52
   3. Status Marital .......................................................... 53
   4. Tingkat Pendidikan .................................................. 54
   5. Masa Kerja .............................................................. 55
C. Deskripsi Data ............................................................ 56
   1. Data Variabel Y (Intensi Turnover) ............................. 56
   2. Data Variabel X (Kepuasan Kerja) ............................. 56
      a. Dimensi Pay .......................................................... 58
      b. Dimensi Promotion ................................................. 59
      c. Dimensi Supervision .............................................. 59
      d. Dimensi Fringe Benefit ........................................... 60
      e. Dimensi Contingent Reward .................................. 60
      f. Dimensi Operating Procedures ............................... 61
      g. Dimensi Coworker ............................................... 62
      h. Dimensi Nature Of Work ...................................... 62
      i. Dimensi Communication ....................................... 63
E. Analisi Data ............................................................... 63
   1. Analisis Regresi Variabel Penelitian ........................... 63
      a. Analisis dampak seluruh X terhadap Y .................... 64
      b. Besaran R Square ............................................... 65
      c. Koefisien Regresi ............................................... 66
F. Uji Hipotesis Variabel X ............................................. 67
1. Uji Hipotesis Pay .......................................................... 67
2. Uji Hipotesis Promotion ............................................. 67
3. Uji Hipotesis Supervision ........................................... 67
4. Uji Hipotesis Fringe Benefit ....................................... 68
5. Uji Hipotesis Contingent Reward ............................... 69
6. Uji Hipotesis Operating Proedures .............................. 69
7. Uji Hipotesis Cowoker ............................................... 69
8. Uji Hipotesis Nature Of Work ................................... 69
9. Uji Hipotesis Communication ..................................... 70
10. Uji Hipotesis Usia ...................................................... 70
11. Uji Hipotesis Jenis Kelamin ....................................... 70
12. Uji Hipotesis Status Marital ...................................... 71
13. Uji Hipotesis Tingkat Pendidikan ............................ 71
14. Uji Hipotesis Masa Kerja .......................................... 72
15. Proporsi Varian masing-masing variable Independen ...... 72
F. Intrepretasi Hasil Penelitian ........................................... 76
G. Keterbatasan Penelitian .............................................. 81

BAB V KESIMPULAN, IMPLIKASI, DAN SARAN
A. Kesimpulan ............................................................... 82
B. Implikasi ................................................................. 83
C. Saran ......................................................................... 85
